After yet another fun and event packed summer in NE1, it’s that time of the year again when the whole city gears up for the darker, chillier autumnal nights and the welcome return of our student chums. Walking past Grey’s Monument today, I could almost feel the city starting to lift, as our two world-class universities once again attract multitudes of fresh-faced and enthusiastic new students from every corner of the globe.

They’ve all made the choice to come to study and live in Newcastle and each one is very welcome here, helping to broaden our diversity and strength as the regional capital of the north. Absolutely everywhere benefits from the economic boost they bring and in exchange for that, we give them our world-famous Geordie warmth, good times and lasting lifetime memories.

When it comes to partying, there’s so much on offer in NE1 - it doesn’t matter what kind of music students are into, they can find it here. Newcastle comes alive after dark and there is so much fun to be had in discovering all the hidden gems in its outstanding and famous nightlife.

So, if you’re new in town, our top tip is take some time to get off campus and explore everything NE1 has to offer! The last couple of years have seen a number of new and exciting venues springing up all over the place and there isn’t a week that goes by without top-notch international DJs and stars touching down in the city for thrilling club nights, gigs and more.

Alongside your studying, try to have as much fun as possible and make new pals. Remember to take care of yourself and your friends and you’ll soon find that this wonderful city will take care of you, too.

Welcome to Newcastle – it’s home.

MASTER CRAFTSMAN!
As part of the ongoing regeneration of the Bigg Market, Number 44-48 Cloth Market (better known as Pumphreys) has undergone a full restoration of the facade. During the works the project team discovered the remains of an existing decorative console to the shopfront, originally there would have been four of these, so, in keeping with the purposes of the project, the team were determined to see these features restored. Enter Iain Broadbent, master craftsman, who has carefully reproduced 3 new hand carved consoles from a combination of old photographs and 2d drawings. The consoles are now sitting proudly on the Cloth Market and provide a wonderful example of an almost forgotten art, so take a look next time you’re in the area! ne1biggmarket.co.uk
